

Brackets and Rings

All our brackets are handforged and can be made to your own specifications, and are supplied with screws and rawl plugs.

Please contact us if you have any special requirements.

PLEASE SPECIFY WHEN ORDERING IF YOUR BRACKETS ARE FOR A 16mm, 20mm OR 25mm POLE.

Available in Matt Black | Antique Cream | Satin Black | Verdigris | Burnished Steel | Bees Wax

Wall Socket BT003

Used in a recess where finials are not appropriate.
Depth from wall: 6mm*

Large Rings RG002

Hand-finished curtain rings, available in all colours.
Ideal for 25mm poles.

Standard Bracket BT001

The most commonly used bracket, all handforged.
Depth from wall to centre of pole: 58 mm*

Long Bracket BT006

This bracket is perfect for eyelet curtains allowing a greater distance from the pole to the wall, enabling your curtains to hang beautifully.

Dimensions: 150 mm from wall to pole.

* Depth from wall is calculated on a 16mm and 20mm pole.
However a 25mm pole depth from the wall is approximately 65mm

Brackets and Rings

continued

Standard Rings RG001

Hand-finished curtain rings, available in all colours.
32mm internal diameter. Ideal for 16mm and 20mm poles.

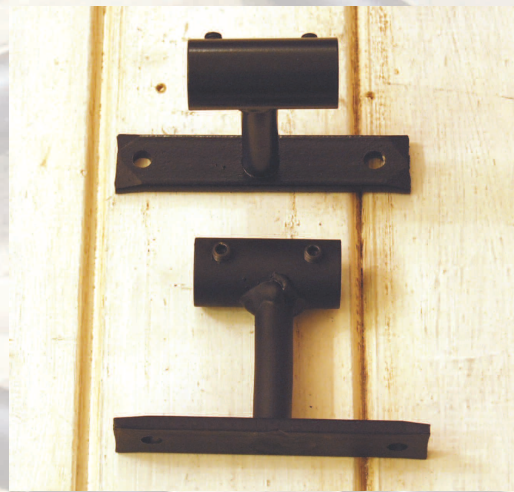

Centre Bracket BT002

Perfect for adding extra support on long poles or
where vertical space is limited.
Depth from wall to centre of pole: 58 mm

Cup Recess Bracket BT005

This cup bracket is ideal for poles without finials where both
ends need to fit into a recess, or where vertical space is limited.

Centre Joiner BT004

The centre joiner bracket is the perfect solution for
supporting long poles, (poles exceeding 2.5 meters,
which need to be supplied in 2 parts).
